 Have You Enjoyed The Kidney Disease Solution Experience?..... 111

Introduction – Welcome!

Congratulations! I commend you on taking action in joining many others and me on this healing journey.

You have taken your health into your own hands and decided, **“That is enough! I want more from life and I’m just going to get it!”**

You are now holding a program that is not only supported by science, but also has real world advice, tried and tested the world over by people just like you who believe that **“there must be another way”**.

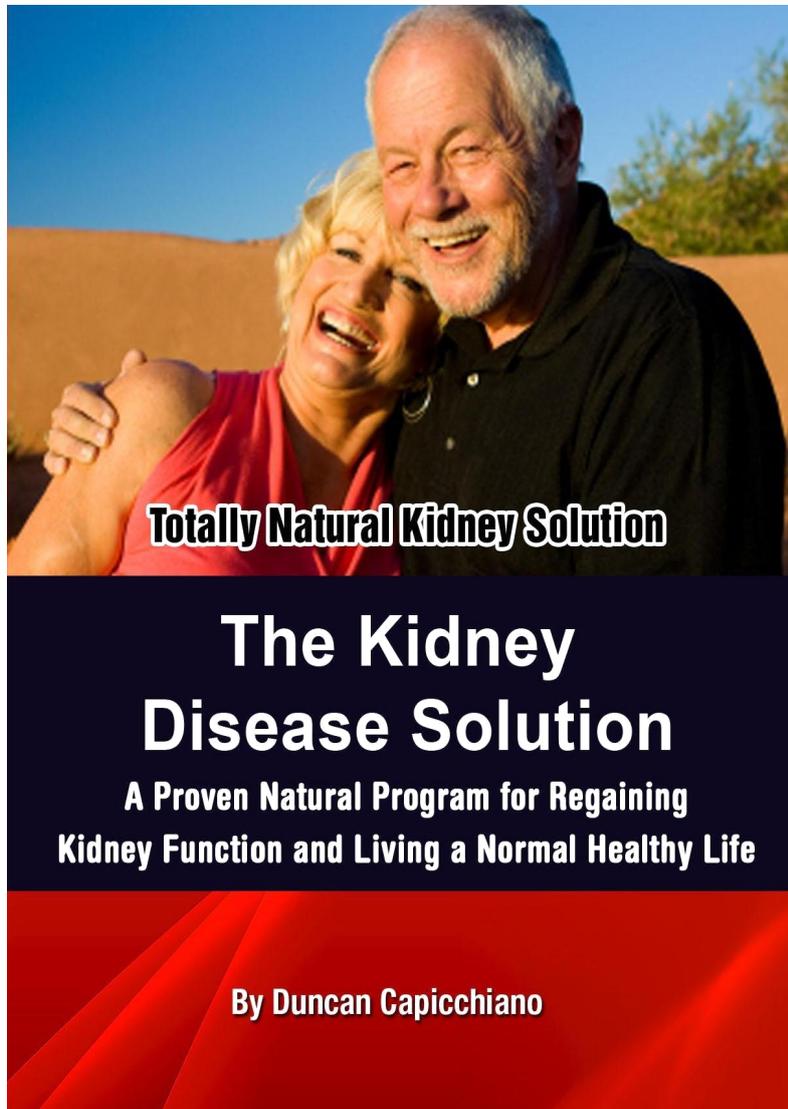

I also want to congratulate you on being one of the **top three percent** of people suffering from this condition who are seeking answers. Seriously, only three percent of the population dares to take this type of opportunity. Why, I am not sure. I can only imagine that a fear within them stops them taking a chance to create a better life. That’s silly if you ask me, but who am I to judge? I’m scared of bugs!

You can use this guide in a number of ways. You can skip the ‘pre-information’ sections and direct yourself straight to the treatment protocols, or you can first educate yourself on the whys and hows of this condition. It is my belief that those with a better understanding of why and how things happen progress more easily and rapidly to their desired outcomes because they can see why they need to complete the necessary treatments. The power to change your life is essentially up to you. I cannot help you any more than you can help yourself. I cannot take the supplements for you, walk for you, or eat for you. However, this is the beauty of this type of healing and self-application format: the program empowers *you*. In addition, the sense of success and completion that you will experience after you have healed your kidney disease will be entirely to your credit! I am simply an observer of your health success. No one can give that to you, nor can anyone take it away from you once you have achieved it. I wish you the most incredible healing journey. I have no doubt that you will reclaim your life, and once again experience the ‘loves’ in your life that you enjoyed so often.

Yours in great health,

Duncan Capicchiano
